Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The substitute specification filed December 12, 2007 has not been entered because it is barely legible. Resubmission of the specification is required.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and **a statement that the substitute specification contains no new matter must also be supplied**. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

Double Patenting

2. Claims 1-6 and 10-27 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-36 of copending Application No. 10/466,592 for the reasons set forth in the last Office action. Applicant did not disagree with the Examiner on this ground of rejection. A Terminal Disclaimer is required to obviate this rejection.

Allowable Subject Matter

3. Claims 1-27 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art references of record, singly or combined, teach or suggest the mesostructured material comprising nanoparticles dispersed in a mineral phase wherein the nanoparticles comprise the specific metal oxides as claimed and wherein a cationic metallic compound present in the crystalline lattice of the metal oxide. The FR-2819432 and the US 2004/0192947 publication fail to teach the specific structural arrangement of the cationic metallic element in the metal oxide as required in the instant claims that is the cations are present "in solid solution" within the metal oxide. As defined in the specification, "cations in solid solution within a metal oxide" means more than just "doping". It means that the cations are inserted or substituted within the metal oxide as a host crystalline lattice, wherein the cations represent at most 50% of the total quantity of metal cations present in the metal oxide (See instant specification, page 9, third paragraph).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1794

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
